Summary

Software and Web Developer with 3 years of experience. I am interested in modern trends in web development technologies, web scraping and software testing, both manual and automated. Possess strong analytical, problem-solving, and communication skills. Eager to contribute to a challenging and collaborative environment. With a background in law and extensive experience as a legal professional, I bring a unique perspective to software development and quality assurance. My legal expertise includes providing consultations, methodological assistance, and representing organizations in various legal matters. This background enhances my ability to analyze complex requirements, mitigate risks, and ensure regulatory compliance within software projects. I leverage my legal acumen to approach testing and development with meticulous attention to detail, ensuring that products not only meet technical standards but also align with legal and regulatory frameworks. My diverse skill set uniquely positions me to contribute to the creation of robust software solutions while ensuring compliance and adherence to legal standards.

Technical Skills

Programming Languages: Python, JavaScript, TypeScript, Java, HTML, CSS, PHP, SQL

Frameworks and Libraries: React, Angular, Ionic, Node.js, Express, Bootstrap, NPM, JSON, jQuery, SCSS

Testing: Selenium WebDriver, Cucumber, Gherkin, JUnit

DevOps: AWS, Git, GitLab

Databases: MongoDB, MySQL, Firebase

Web Scraping Tools: Selenium, BeautifulSoup, Scrapy

Other: RESTful APIs, OOP concepts, Agile methodologies

Education

National College of Ireland - Postgraduate Diploma in Cyber Security – graduation in 2024.

Atlantic Technological University - Higher Diploma in Science in Software Development – 2022.

University of Ruse, Bulgaria – Master's Degree, Law - 2007.

Career

Freelance Software and Web Developer

Jan 2022 – Present

Designing, creating and maintaining responsive Websites and Web Applications.

Developing Web scraping software, using Python and Javascript.

Testing different types of software and websites, manually and using JUnit, Selenium Web driver with JavaScript and Java.

I am constantly taking additional courses to improve my programming skills.

Software Developer - Internship, Orcawise Ltd.

Feb 2023 - Jun 2023

Developed applications using Python within the AWS cloud platform. Performed web scraping tasks and maintained/supported existing web scraping software, leveraging **Selenium, BeautifulSoup, and Scrapy** where applicable. Implemented new features and bug fixes to improve code quality and functionality. Collaborated with other developers and stakeholders to ensure efficient data management through various databases.

Software Developer - Internship, MG Pro LTD, Bulgaria

Jan 2022 - Mar 2022

Developing and maintaining software for automation and energy management in residential and commercial buildings. Implementing new features. Testing and debugging existing software.

Student at ATU- Higher Diploma in Science in Software Development (Level 8)

Jan 2021 – Jan 2022

Computer Architecture and Technology Convergence, Database Design and Development, Object Oriented Software Development (Java), Web Application Development, Computational Thinking with Algorithms, Agile Software Development, Advanced Object Oriented Software development (Java), Operating Systems and Cloud Computing, Mobile Applications Development (TypeScript, Angular and Ionic), Network Technologies

Self-employed

Jul 2017 – Dec 2020

Chief Expert, Bulgarian National Audit Office, Sofia, Bulgaria

Jan 2012 – Apr 2016

The National Audit Office is carrying out control on the implementation of the budget and of other public funds.

- Provided legal consultations and methodological assistance to auditors, senior members of audit teams and vice presidents of the National Audit Office in the matters of public procurements and all legal questions they might have during the audit process.
- Prepared criminal decrees and resolutions for termination of administrative proceedings issued by National Audit Office.
- Representing the president of National Audit Office in court regarding appeals against criminal decrees.
- Started legal proceeding for debt collections.
